PROFESSIONAL EXPERIENCE

General Service & Cleaning Officer | Awash Wine Share Company

Feb 2025 – Present

- Responsible for day-to-day general service and cleaning-related operational coordination within the company.

- Plan, coordinate, and supervise daily cleaning activities.
- Ensure offices, production areas, warehouses, toilets, corridors, common areas, external areas, and other facilities are cleaned according to approved schedules.
- Develop and maintain daily, weekly, monthly, and periodic cleaning schedules.
- Ensure proper cleaning methods are applied according to the type of area and surface.
- Conduct regular inspections of cleaning activities and take corrective action where standards are not met.
- Ensure proper segregation, collection, handling, and disposal of waste.
- Monitor sanitation standards and maintain a clean and hygienic working environment.
- Ensure cleaning equipment, tools, and materials are properly used, stored, and maintained.
- Supervise and coordinate cleaners and general service personnel.
- Prepare daily work assignments and allocate employees according to operational requirements.
- Monitor attendance, punctuality, discipline, productivity, and performance.
- Provide employees with clear instructions regarding their responsibilities.
- Conduct regular toolbox meetings and operational briefings.
- Identify training needs and provide coaching and on-the-job guidance.
- Report employee performance, disciplinary issues, absenteeism, and other relevant matters to management/HR.
- Ensure adequate staffing coverage during working hours, weekends, holidays, and special events where required.
- Coordinate general service activities required to maintain smooth day-to-day operations.
- Monitor the condition and cleanliness of company facilities.
- Coordinate minor facility-service requirements and report maintenance problems to the responsible department.
- Follow up on facility-related requests and ensure timely resolution.
- Support office, factory, warehouse, and branch operational requirements.

- Coordinate cleaning and preparation of facilities for meetings, visitors, inspections, company events, and other activities.
- Ensure common facilities and service areas remain properly organized.
- Prepare cleaning-material requirements based on actual consumption and operational needs.
- Monitor stock levels of detergents, disinfectants, tissue, garbage bags, PPE, cleaning tools, and other supplies.
- Maintain proper records of materials issued and consumed.
- Prevent unnecessary wastage, misuse, and unauthorized use of cleaning materials.
- Conduct periodic stock checks and reconcile physical stock with records.
- Raise purchase/requisition requests when stock reaches the approved minimum level.
- Ensure chemicals and cleaning materials are properly labeled, stored, and handled.
